

Business Analyst Internship

About the Internship at Sollers:

Join Sollers' Business Analyst internship and start your professional career in IT business consulting!

This paid internship is not just a summer holiday opportunity; it's your first step to becoming a proficient Business Analyst. Gain hands-on experience with various tools and techniques for effective business requirement analysis with a support of experienced colleagues. Learn to gather and analyze business requirements, translate them into functional specifications, and ensure that the final product meets users needs. Be involved in all stages of the project lifecycle, from initial planning to final delivery, and develop a deep understanding of business processes and IT solutions.

If you are a student in your final years of study, join us and become a skilled Business Analyst in the IT business consulting! The best-performing interns may be offered full-time positions post-internship.

About the role. You will:

- Receive comprehensive training to set up your work environment and integrate into your team, always with the support of experienced professionals.
- Collaborate closely with your team, learning the ins and outs of IT project workflows while contributing meaningfully from day one.
- Conduct business analysis, define functional requirements, test developed solutions and support UATs.
- Work closely with software developers and IT architects on a daily basis.
- Be an active member of an agile team.
- Actively present the results of the team's work.

About the requirements. You need:

- Strong analytical and synthesis skills to present the results of your work effectively.
- Great command of English language, at least C1 level.
- Full-time (8 hours per day, from Monday to Friday) for 3 months (July – September 2024)
- Effective communication skills.
- Ability to learn quickly in a supportive but challenging international environment.

About our promises. We can offer:

- Your career boost! From day one, you will get project tasks and during the three-month internship we will support your development as #growth is one of our core values.
- Paid internship with monthly salary.
- Opportunities to work in an agile team environment.
- Hands-on experience with cutting-edge technologies and tools.

- Potential for full-time employment after the completed internship.
- Ongoing support from members of your future team who will answer all your questions and doubts and with whom you will work onsite in the same office.
 - The possibility of working from home 1 day per week and for the rest – in a modern office in the city center with many perks (ergonomic office space, chill/gaming rooms, fully equipped kitchen with cereals and fruit, and office lunches. But our biggest perk is definitely people you will meet on a daily basis).
 - Many team-building (cultural, sport, charity) and integration events.
